

## TEAM COLLABORATION PACKAGES

At NWCFO, we are Certified Practitioners of Personalanalysis—a personality assessment that provides insights into how people communicate, make decisions, process information and do their best work. In addition to individual Personalanalysis profile reviews, we facilitate interactive workshops that empower teams to develop trust, honor diversity and inclusion, resolve conflict, accelerate collaboration and make better decisions together, making a direct impact on the overall team performance.

Personalanalysis group training taught us that differences in people's personalities can cause serious barriers to proper communication, collaboration and teamwork. Knowing the different types makes it easier to give the other person what they need to move forward in a positive way. On a scale of 1-10, our team collaboration improved by 40% after the Personalanalysis training, which is a great return on our financial investment in the training."

**Woody, Director of Supply Chain Management**

- Custom team packages include individual Personalanalysis profile reviews, one or multiple group training sessions, practical application homework, and individual coaching sessions following the training
- The first team training provides an overview of the Personalanalysis system, a review of the team profile and understanding how personal styles impact performance, communication and decision-making
- Additional sessions help participants learn how to use Personalanalysis to improve communication, build relationships with others and solve business problems
- Individual coaching sessions support team members in applying new collaboration tools and insights, and working through any personal challenges
- For groups of 4-15 participants
- Results: Improved productivity, cohesion, communication and motivation
- Starting at \$3,500, customizable to fit your needs and budget
